ROOMS ❖ OCEAN BREEZE

Katherine Shenaman used neutrals, working with the richly stained walnut floors and white walls to keep this bedroom simple and airy. The upholstered headboard is actually a screen that covers a half-wall that hides the staircase coming up from the floor below. The antique side table is topped off with a modern lamp for a fresh look, and the classic sisal carpet is a perfect complement to this casually elegant home on the beach. *Katherine Shenaman Interiors, West Palm Beach (561-833-4181, katherinshenaman.com)*
